GitHub: <https://github.com/PauOlmos> · Portfolio: <https://pauolmos.github.io>

Game Developer experienced in gameplay programming, game design and planning & organization. Really focused on keeping learning and improving my skills. With a high level in bosses design and programming, I have completed developing an action game based on fighting numerous bosses and looking forward to developing another one with all the knowledge acquired. I am always open to constructive criticism and I have excellent communication skills both in English and Spanish.
